The top 10 Living Lifetime cows for the year 2020. They are the kind of working girls' dairymen appreciate. As of 1/1/21 they were all in the herds with most milking and bred back. Not only the milk and high components in the tank count, it's the number of offspring produced that adds real dividends! Combined there are 84 calving's from these 10 cows.

The #1 cow, Blaze is not only a Living Lifetime cow she is also a 305d & 365d 3x Fat Honor Roll Class Leader and 305d & 365d 3x Milk & Protein Honor Roll cow in the Over 12YR group. She was bred by Hendel Farms and is owned as

is, #7 Nibs by Hilltop Acres, IA. The dam and daughter pair of #3 Treat and #6 Trillium have combined to produce 730,285 lbs. of ECM for the Larry Meyer Family, WI. Trillium is the only cow that is genomic tested in this group.

Production working hand in hand with type. The group consists of 8 multiple Ex and 2 V88 cows. They are sired by 10 different bulls via A.I. The dams stack up just as well. Four are scored multiple Ex with 4 VG with 2 not scored. The best records of the 9 dams with records average 32,503m. Five of the dams have lifetimes from 174,370m to 329,049m.
