

TOP 10 LIVING LIFETIME COWS FOR 2022

Living Lifetime means just that, alive and still adding valuable milk to their lifetime credits as of December 31, 2022. Anyone that milks cows has to be impressed with the totals these cows are putting in the tank. There are 4 new members to the list. They are producing more product in less days and still giving it for long profitable lifetimes. Seven have 6 or more lactations.

The top cow, Jenlar Dynasty Treat 5E91 repeats at the top of the list. She added 13,726 lbs. ECM to her credits. Her family tree includes a “Superior Brood Cow” Premium dam, a 3E94 Agenda daughter and a 3E93 Legacy sister both over 200,00m. Bred and developed by the Meyer Family.

Hilltop Acres owns 50% of the list. These 5 cows have put a combined 1,706,070 lbs. ECM in the tank to date.

Eight of these LLT cows have plus PPR numbers with Calypso the highest at +146 PPR. Dynasty is the sire of 2 cows and the maternal grandsire of another. Nine sires and 9 maternal grand sires are U.S. bred. Again, this year the top records of the dam’s average over 30,000m 1,300f 1,060p. Seven of the dams have from 104,000 to 302,290m LT.

If you have animals that are not showing up on this or other production lists, contact the National office.
